Hydrolysed Vegetable Proteins

## HVP: Hydrolysed Vegetable Proteins

We offer with the Liebex range Hydrolysed Vegetable Proteins (HVP) originating from different vegetable sources. The Liebex HVP's are a natural source of taste enhancers and the ideal building block for all your savoury creations. Our HVP's are vegan and have a typical broth flavour.

The Liebex range is available in powder and paste. We guarantee the use of non-GMO raw materials and the strictest compliance to the EU legal limits of trace materials.
